EXPERIENCE

Document Scanner/Digitizer - Octacom Ltd., Toronto, ON

Aug 2023 – Present

- Efficiently scan a variety of documents, ensuring the accuracy and quality of digitized files.
- Utilize specialized software to digitize documents, ensuring that they are properly organized and accessible for clients.
- Maintain a high level of attention to detail to guarantee the integrity of digitized documents.
- Collaborate with team members to streamline document management processes and improve efficiency.
- Adhere to company guidelines and industry standards for document scanning and management.

Ride Operator - Canada's Wonderland, Toronto, ON

Feb 2023 – Aug 2023

- Demonstrated exceptional teamwork skills, collaborating effectively with colleagues to ensure smooth ride operations.
- Received recognition as one of the best crew members for consistently providing outstanding service to park visitors.
- Offered a Team Lead position due to outstanding performance and leadership qualities.
- Operated amusement park rides with a strong commitment to visitor safety, conducting thorough pre-ride safety inspections and adhering to strict safety protocols.

Personal PROJECTS

My iLibrary / HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

- Developed a web application for personal book collection management, showcasing skills in full-stack development, user authentication, API integration, and responsive design.
- Implemented secure user registration and login using JSON Web Tokens (JWT).
- Integrated a Book Search API for real-time book data retrieval.
- Deployed the application on a Google Cloud VM, demonstrating cloud hosting expertise.

ToronToBank / C#, SQL Server, Windows Forms, .NET Framework

- Developed a C# banking application with user-friendly registration and account management features.
- Integrated SQL Server (or MySQL) for data storage and retrieval.
- Designed and maintained a responsive Windows Forms (or WPF) interface.
- Engineered core banking functionalities, including deposits, withdrawals, and transaction logging.
